### Children's Print Books with Built-in Audio Readers Arriving this Winter!

Rawlins Library is excited to announce the addition of print books with built-in audio readers to the children's collection.

The all-in-one audio readers, by Vox Books and Wonderbook, will be available for check out starting this winter.

The new Wonderbooks and Vox Books feature a children's print book with a built-in audio reader. The audio reader is permanently attached to the hardcover book. No need for CDs or Wi-Fi. Children can simply push a button and listen to the story while they read.

Studies have shown listening to stories aloud helps...

- Make the connection between words, sounds and what's written on the page
- Expands vocabulary
- Improve comprehension & more

New All-In-One Audio Readers purchased with a generous donation from the William Fischer Estate.
